Professional Summary

Data Engineer with 2+ years of experience designing, building, and optimizing scalable **ETL/ELT pipelines** using **Databricks**, **AWS**, **PySpark**, **Azure Data Factory (ADF)** and **ADLS**. Strong expertise in **Python**, **SQL**, **Delta Lake**, and **Unity Catalog**, with hands-on experience developing optimized transformation logic for **50M+ records**, implementing **SCD Type 1/Type 2**, and building production-grade data pipelines across **Azure and AWS** cloud environments.

Work Experience

Deloitte July 2026 - Present | India

Consultant (AM) - Data Engineer

- Requirement Analysis & Development: Analyzed **business requirements** and developed transformation logic using **PySpark** and **SQL** on **Azure Databricks**, processing **50M+ records** with performance optimizations.
- Data Governance & Modeling: Managed **Unity Catalog** objects and implemented **SCD Type 1 and Type 2** logic to maintain accurate and governed historical data.
- Pipeline Orchestration: Designed and implemented automated data pipelines using **Azure Data Factory (ADF)** to orchestrate **Azure Databricks** workflows and data processing across **ADLS**.

Genpact Jan 2024 - July 2026 | India

Consultant - Data Engineer

- **Pipeline Architecture & Optimization:** Architected and optimized **production-grade data pipelines** utilizing **Databricks, PySpark, Python, SQL, Airflow, and AWS**, with **CI/CD and version control** implemented via **GitHub**.
- **Data Orchestration & Automation:** Automated pipeline scheduling, monitoring, and alerting using **Airflow DAGs** and AI/ML workflows, enhancing workflow reliability and reducing manual intervention by **40%**.
- **Cloud & Storage Optimization:** Engineered efficient **AWS S3 storage and partitioning strategies**, optimizing read/write patterns and reducing storage costs by **15%**.
- **Performance Improvements:** Tuned **Spark jobs, SQL queries, AI enablement and transformations**, achieving **30% faster data processing** and improving overall system performance.

Senior Associate - Data Engineer

- **Data Pipeline Development & Collaboration:** Collaborated with cross-functional teams to gather requirements and deliver **analytics-ready datasets** through scalable **ETL pipelines** using **Databricks, PySpark, SQL, and AWS S3**, processing **10M+ records daily**, improving processing efficiency by **25%**, and reducing project turnaround time by **15%**.
- **Code Quality & Optimization:** Developed maintainable and extensible **Python and SQL-based solutions**, strengthening code quality standards, reducing **technical debt by 20%**, and improving overall system maintainability.

Technical Skills

- **Data Engineering:** Databricks, Apache Spark, Delta Lake, ETL/ELT Pipelines
- **Programming:** Python, SQL, PySpark
- **Cloud & Orchestration:** AWS S3, AWS Lambda, Step Functions, AWS Glue, AWS EMR, Apache Airflow
- **Databases:** MySQL, Oracle, MongoDB, Azure SQL
- **DevOps & Tooling:** Git, GitHub, CI/CD, Linux

Projects

Event-Driven Data Ingestion Pipeline on AWS & Databricks Nov, 2025 - Jan, 2026

- Designed an automated **event-driven ingestion pipeline** on **AWS and Databricks** to ingest incoming data.
- Implemented **Databricks Autoloader** with **schema evolution** to process CSV data using **PySpark and SQL**.
- Built transformation pipelines using **Medallion Architecture** in **Databricks Lakehouse** to deliver analytics-ready datasets.

Education

Graphic Era deemed to be University 2019 - 2023

B.Tech. in Computer Science and Engineering — GPA: 9.29/10.00 *Dehradun, India*

Certifications

- **DataBricks Certified Data Engineer Associate** |
